### **DETAILED ACTION**

This Office Action is in response to a communication made on April 26, 2001.

The Information Disclosure Statements were received on September 10, 2001, September 28, 2001, January 25, 2002, and April 15, 2002.

The Preliminary Amendment was received on June 21, 2005.

Claims 1-188 are pending in this application.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-38 and 111-188, drawn to processing audio data based on a profile, classified in class 700, subclass 94.
- II. Claims 39-110, drawn to receiving a request for audio data and formatting the audio data and transmitting to the client, classified in class 709, subclass 226.

Inventions I and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as processing audio information on a local machine according to a clients locally inputted information. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
